PROJECTS

Fame — *Connect, Trade & Engage -* **LINK**
- Developed Fame, a social media app focused on celebrity engagement and popularity tracking for a new-age Indian audience.
- Created React Native front-end with TypeScript, supporting dynamic user feeds, Instagram-style reels, and news integration.
- Built a scalable backend using Node.js and MongoDB with optimized database models for posts, followers, and user transactions.
- Developed and deployed on both iOS and Android platforms, with performance-focused UI/UX.

AgroDmart — *Krishi Mitra and Agriculture App*
- A digital platform for farmers where they can shop agri products, check weather and connect with other farmers and agri experts.
- Code implementation using JAVA, XML and PHP.

NavDelight — *Online Groceries Delivery*
- An E-commerce website where customers can order fruits and vegetables online from the comfort of their home and get them delivered at their doorstep.
- Code implementation using HTML, CSS, PHP, MYSQL and WORDPRESS

LUJO — *Ride sharing carpooling*
- Android based application where a car owner offers ride and chooses fellow riders who travel along the same route. In addition to being a more affordable way to commute, it also helps the environment by reducing the number of cars on the road and bringing down the pollution.
- Code implementation using JAVA and XML.

Tic Tac Toe — *Lite Casual Game*
- Designed a lite game with cool and simplistic UI with different levels of hardness to give users a challenge. Where you can play with computer and can opt for multiplayer play option.
- Code implementation using XML and JAVA with a series of logics..
